# REGIONAL SELECTIVE ASSISTANCE

RSA GRANTS | OCTOBER - DECEMBER 2011

#### Grant offers accepted October - December 2011

Regional Selective Assistance (RSA) is the main national scheme of financial assistance to industry. It provides discretionary grants to investment projects that will create and safeguard employment in the Assisted Areas – areas designated for regional aid under European Community law. It also includes 'Tier 3' assistance in other designated areas where we can offer support to Small and Medium-sized Enterprises (SMEs), delivered under the EC's General Block Exemption Regulations.

The table 'Grant Offers Accepted' details the RSA offers accepted in the three months to end December 2011. In this period 20 businesses in Scotland accepted RSA grant offers totalling over £12 million. These offers relate to projects with planned investment of £62.8 million, aimed at the planned creation and safeguarding of 1007 jobs. Tier 3 accepted offers are marked with an \*.

Payment of RSA is made in instalments, typically over several years as job and capital expenditure targets are met. Not all projects will proceed, and nor do all accepted offers result in full payment, as projects are sometimes scaled down or abandoned before payments are made. The figures quoted in the tables, therefore, represent the maximum grant potentially payable if the project is satisfactorily completed, and **not** the amount actually paid to date. All job numbers given in this report are firms' forecast figures, and are subject to change depending on future economic conditions and other factors affecting the businesses concerned.

For more information on RSA go to www.scottish-enterprise.com/rsa or contact:
